

## A GUIDE TO

# trAnSfOrMiNG SChOOL GRouNDs

## PERMISSION TO COPY

This Canadian Biodiversity Institute school grounds resource, *A Guide to Transforming School Grounds*, is perfect bound. This means that the pages are glued to the binding. Fully opening perfect bound books and pressing them flat on the photocopier could eventually cause some pages to fall out.

Schools have our permission to copy sections of this book for their own use. These are: Tips on Filling out Funding Application Forms; Sample Surveys; The Ugliest School Yard Contest; Tree Planting Diagrams; Sample Site Plans; Mapping and Measuring; Planning Check List; Model Check List, and Plant Lists.

## PDF FILES

We have created a separate PDF document for each of these sections so that you can print them directly from your computer without damaging the binding of your copy of *A Guide to Transforming School Grounds*.
